

Refresh

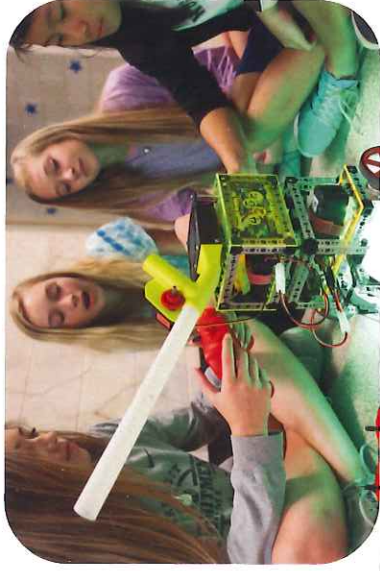

\$1 to \$2,499

Refresh a box. Any amount of money can help to refresh existing Lab-in-a-Box resources. Supplies like gloves and chemicals need to be replenished. Your donation keeps a new set of students ready to learn with hands-on activities.

Adopt

\$2,500

Adopt a classroom. Sponsor one classroom to receive a Lab-in-a-Box resource. RCSI will train the teacher and refill with supplies as needed, to make an impact for years to come.

Reboot

\$5,000

Reinvigorate the interest in science for teachers and students with our new Lab-in-a-Box resources. This gift covers the donation of three new, 2017 Lab-in-a-Box resources recently developed: Robotics, Fossils and Friction Forces. Your donation provides participating middle schools with the newest experiment sets and includes all supplies, manuals, and free teacher training.

New School

\$10,000

Bring the benefits of Lab-in-a-Box to a school that has never participated! This gift covers the donation of up to seven Lab-in-a-boxes to a NEW middle school never served before. This includes the sets with proven success and the newest sets developed for 2017. New school resources include all equipment, manuals and teacher training for each resource.

Develop

\$25,000

Invest in the future of the Lab-in-a-Box program by developing a brand-new box! Your funds will support researching the areas of need, determining the appropriate experiments or activities, selecting all equipment, creating manuals, preparing teacher training, and creating a prototype by an expert.

Each Lab-in-a-Box created with your special gift will be packaged in a convenient box with your company's name & logo on it EVERY time it is donated to a school.

Roane State Foundation is a 501c3 organization and your donation may be tax-deductible.
